

MATHEUS PADILHA RODRIGUES

Mid-level Software Engineer

padilha.matheus@hotmail.com | [lk/padilha-matheus](https://www.linkedin.com/in/padilha-matheus) | Ponta Grossa, Brazil | [gh/Padilha1](https://github.com/Padilha1)

PROFESSIONAL SUMMARY

Mid-level FullStack Software Engineer with practical experience in building scalable and maintainable web applications across both frontend and backend. Proficient in React, TypeScript, Fastify, and MySQL, with a strong foundation in component-driven development, API design, and performance optimization. Skilled in creating intuitive user interfaces using modern CSS frameworks like Tailwind, and documenting APIs with OpenAPI (Swagger). Comfortable working with Git-based workflows, CI/CD pipelines (GitHub Actions), and cross-functional teams. Passionate about clean code, developer experience, and solving real-world problems through technology. Always eager to learn, mentor, and contribute to team growth in collaborative and impact-driven environments..

WORK EXPERIENCE

S4 Treinamentos — Fullstack Software Engineer

Occupational Safety (Brazil)

Ago 2023 – Present

- Led the development of S4 Mobile App, resulting in a 90% reduction of paper usage in the industrial inspection process;
